| 03 Mar 2011
17:00 ct | Rolf Marschalek
University of Frankfurt, Germany | Pathological mechanism in t(4;11) Leukemia:
Epigenetic and transcriptional Dysregulation. |
| 10 Mar 2011
17:00 ct | Alexander Hillisch
Bayer HealthCare AG, Wuppertal, Germany | Building an <i>in silico</i> ADMET Platform
for Hit-to-lead and Lead Optimisation. |
| 17 Mar 2011
17:00 ct | Jennifer Southgate
University of York, Great Britain | The ABC of Human Urothelium:
Applications, Biology & Culture. |
| 24 Mar 2011
17:00 ct | Werner Weitschies
University of Greifswald, Germany | In-vivo Behavior of Oral Dosage Forms:
Old Believes die hard. |
| 31 Mar 2011
17:00 ct | Elia Stupka
University College London, Great Britain | Do we understand enough about Genomes to build
next-generation Molecular Networks of Disease and
Pharmacological Action? |
| 07 Apr 2011
15:30 | Rudolf Lucas
University of Georgia, Augusta, USA | TNF, a Moonlighting Cytokine in the Lungs. |
| 07 Apr 2011
17:00 ct | Judit Hohmann
University of Szeged, Hungary | The Value of the Middle European Flora
for Drug Discovery:
Unexploited Possibility or Exhausted Potency. |
| 14 Apr 2011
17:00 ct | Andreas Mayrhofer
AGES - PharmMed Vienna, Austria | Analytical Technologies and Strategies for
Combating Illegal Medicines. |
| 05 May 2011
17:00 ct | Jerzy Adamski
Helmholtz Zentrum München, Germany | Application of Metabolomics in Target Search
and Analyses of Drug Action. |
| 12 May 2011
17:00 ct | Martina Marchetti-Deschmann
Vienna University of Technology, Austria | Imaging Mass Spectrometry. |
| 19 May 2011
17:00 ct | Christian Dullin
Universitätsmedizin Göttingen, Germany | Imaging Technologies and Applications in
Preclinical Research and Clinical Routine. |
| 26 May 2011
17:00 ct | David Black
University of New South Wales, Sydney, Australia | The Generation of New Indole Chemistry
through Molecular Activation |
| 09 Jun 2011
